```
graph LR; A[xEventGroupSync] --> C[uxTaskResetEventItemValue]; B[xEventGroupWaitBits] --> C;
```

The diagram illustrates a relationship between three variables. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'xEventGroupSync' and the bottom box contains 'xEventGroupWaitBits'. Blue arrows point from the right side of each of these boxes to a single gray rectangular box on the right. This gray box contains the text 'uxTaskResetEventItemValue'. The gray box has a slight 3D effect with a darker gray shadow on its bottom and right edges.
