

xEventGroupSync

xEventGroupWaitBits

vTaskPlaceOnUnorderedEventList

```
graph LR; A[xEventGroupSync] --> C[vTaskPlaceOnUnorderedEventList]; B[xEventGroupWaitBits] --> C;
```

The diagram illustrates a functional dependency. Two white rectangular boxes on the left, labeled 'xEventGroupSync' and 'xEventGroupWaitBits', have blue arrows pointing to a single gray rectangular box on the right labeled 'vTaskPlaceOnUnorderedEventList'. This indicates that both 'xEventGroupSync' and 'xEventGroupWaitBits' utilize the 'vTaskPlaceOnUnorderedEventList' function.
