

AT91F_PMC_IsInterruptMasked

```
graph LR; A[AT91F_PMC_IsInterruptMasked] --> B[AT91F_PMC_GetInterruptMaskStatus];
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'AT91F_PMC_IsInterruptMasked'. The right box is gray with a black border and contains the text 'AT91F_PMC_GetInterruptMaskStatus' on two lines.
